

Implementation Roadmap Review Meeting, 13:00~15:00, Oct. 19th & 9:00~12:00, Oct. 20th
Korea International Water Week 2016

A bridge between the editions of the World Water Fora: Implementing solutions, facilitate monitoring and reviewing the progress Participations

Name	Organization
Dr.Jung-moo Lee	President of the Korea Water Forum(KWF)
Prof. Soontak Lee	Chair of the Integrating World Water Forums' Task Force
Mr. Guy Fradin	Secretary General of the International Water Resources Association(IWRA)
Mr. Tom Soo	Secretary General of the World Water Council(WWC)
Mr. Jorge Enoch F. Werneck Lima	Programme Specialist of UNESCO International Hydrological Programme(IHP)
Ms. Sarantuyaa Zandaryaa	Ramsar Convention on Wetlands
Mr. Emmanuel Grenier	Public Relations of International Commission on Large Dams(ICOLD)
Ms. Lucie Pluschke	Water-Energy-Food Nexus Officer of United Nations Food and Agriculture Organization(FAO)
Dr. Daniel Norkwei Adom	Senior Human Settlements Officer of UN Habitat
Ms. Lee, Namsoo	Manager of K-water
Dr. Ania Grobicki	Deputy Secretary General of Ramsar Convention Secretariat
Mr. Callum Clench	Executive Director of the International Water Resources Association(IWRA)
Dr. Eric Herv'e Marie Tardieu	Deputy Secretary General of the International Network of Basin Organizations(INBO)
Mr. Alexander Otte	Project Officer of the UNESCO International Hydrological Programme(IHP)
Ms. Diana Iskrev-Idigo	Treasurer of the Women for Water Partnership(WfWP)

Highlights

- Discussion to enhance implementation of solutions of the 7th World Water Forum
- Discussed on development of the Action Monitoring System and Progress Reports
- Made suggestions for the successful implementation of Roadmaps
- Addressed from the participants regarding frameworks on Thematic Sessions of the 8th World Water Forum

The Implementation Roadmap Review Meeting gathered Daegu-Gyeongbuk Implementation Commitment (DGIC) Champions to assess progress, share information and responsibilities, and plan activities as a lead-up to the 8th World Water Forum, in 2018, in Brazil.

The session also helped identify necessary updates to be made to the online Action Monitoring System platform and the bi-annual Progress Report of which the second edition was launched on this occasion.

The 8th World Water Forum Thematic Process Commission (Prof. Werneck-Lima, Vice-Chair) presented the preparatory process of the Brazilian Forum and engaged in a dialogue with DGIC Champions on the added value that Implementation Roadmaps will bring to Brazil in 2018.

"The Implementation Roadmaps are an innovative mechanism to bridge editions of the World Water Forum. Therefore, the feedback of DGIC Champions, who are at the forefront of this initiative, is crucial to readjust and smooth the process". (Mr. Guy Fradin, WWC Board Member)

"I hope this event will offer a solid framework for orienting activities and sharing information as the 8th world Water Forum approaches. I believe the Ministry of Land, Infrastructure and Transport, World Water Council, and Korea Water Forum will spare no support and effort for your participation in Implementing Roadmaps." (Dr. Jung-moo Lee, KWF President)

"The most critical point that the Action Monitoring System should work on is that not only stakeholders but also other core groups should be encouraged to participate in the activities of the progress report." (Ms. Lucie Pluschke, FAO)

"For a successful Implementation Roadmap, new agendas should be made after balancing between pros and cons, to guarantee the continuity of Water Fora." (Mr. Callum Clench, IWRA)

The Themes of Implementation Roadmaps

- 1.1. Enough Safe Water for All
- 1.2. Integrated Sanitation for All
- 1.3. Adapting to Change : Managing Risk and Uncertainty for Resilience and Disaster Preparedness
- 1.4. Infrastructure for Sustainable Water Resource Management and Services
- 2.1. Water for Food
- 2.2. Water and Energy

- 2.3. Water and Cities
- 3.1. Green Growth, Water Stewardship and Industry
- 3.2. Managing and Restoring Ecosystems for Water Services and Biodiversity
- 3.3. Ensuring Water Quality from Ridge to Reef
- 3.4. SMART Implementation of IWRM
- 4.1. Economics and Financing for Innovative Investments

- 4.2. Effective Governance : Enhanced Political Decisions, Stakeholder Participation and Technical Information
- 4.3. Cooperation for Reducing Conflict and Improving Transboundary Water Management
- 4.4. Water Cultures, Justice and Equity
- 4.5. Enhancing Education and Capacity Building
